

TOWN of WINDHAM

FY 2016-2017 MUNICIPAL BUDGET

9910 – GENERAL CONTINGENCY FUND

This is one of two contingency funds included in the annual budget and offset by fund balance (i.e. no additional property taxes were raised to fund it). The purpose of this account is to provide flexibility to the Council in dealing with unforeseen problems or opportunities without seeking a supplemental appropriation by calling a special town meeting.

Increased to \$150,000 in the preliminary and manager's proposed budget for fiscal 2017.

FY 2016-2017 MUNICIPAL BUDGET

9920 – ENERGY & WEATHER EMERGENCY FUND

This is one of two contingency funds included in the annual budget and offset by fund balance (i.e. no additional property taxes were raised to fund it). It was established specifically to address the challenges presented by an unusually severe winter and expenses such as overtime and road salt in public works, or to deal with energy price spikes without adding unnecessarily to department budgets and without seeking a supplemental appropriation by calling a special town meeting.

Increased to \$150,000 in the preliminary and manager's proposed budget for fiscal 2017.
