

Sidewalks in South Windham

Through a Cooperative Agreement (the "Agreement") with the Portland Area Comprehensive Transportation System (PACTS), the Town of Windham has been awarded a grant to build/rebuild sidewalks along Route 202 (Main Street) in South Windham. Having rebuilt Depot Street in 2021 with sidewalks and pedestrian lighting, the goal of this project is to continue the effort to revitalize South Windham Village with user-friendly pedestrian facilities that make it a more attractive place to live and do business.

The project includes the following components:

- Rebuild 1,250 feet of existing sidewalk on Route 202 (Main Street) from the Mountain Division Trail crossing (next to the Blue Seal store) to Depot Street in the center of South Windham Village.
- 1,250 ft. of new 5-ft wide paved sidewalk with granite curbing along the west side of Route 202 from the Mountain Division Trail crossing to Depot Street in the center of South Windham Village

In the agreement with PACTS, the Town will receive \$250,000 to help pay for the estimated \$525,000 project. The design for the sidewalk project will occur in the first half of 2022, and the project is scheduled to go out to bid late spring for construction in late 2022, 2023. For further information on this project, contact Mark Arienti, Town Engineer at 207-982-1909.
